ALI ZAIN

FULL STACK DEVELOPER

Sialkot, Punjab, Pakistan | Phone: +923026389629 | Email: pczain76@gmail.com
GitHub: https://github.com/pczain76-sudo | LinkedIn: https://www.linkedin.com/in/alizain-developer

PROFESSIONAL SUMMARY

Full Stack Developer focused on building responsive web applications and practical business software. Experienced with React, Next.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, PostgreSQL and Better-SQLite. Built client-focused solutions covering distribution workflows, warehouse inventory, billing, staff records, and one-click ID card generation. Interested in creating reliable, user-friendly software that solves real operational problems.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, Better-SQLite, PostgreSQL
Tools & Concepts: Git, GitHub, CRUD Operations, Responsive Design, DOM Manipulation

SELECTED PROJECTS

Distribution Management System

Full Stack | Next.js, Tailwind CSS, Node.js, Express.js, Better-SQLite

Completed a distribution management solution for a client to support day-to-day business operations.

- Implemented product and multi-rate management, purchase entries, batch-wise stock handling, and FIFO-based stock workflows.
- Supported sales billing, order booking, route and delivery management, customer ledgers, credit and partial payments.
- Added sales returns, company returns, cash handover, expense tracking, reporting, Excel export, audit logs, and backups.

Airport Warehouse & Inventory Management System

Full Stack | React, Tailwind CSS, Node.js, Express.js, MongoDB

Built an online, centralized warehouse and inventory system for Sialkot International Airport, accessible by staff across multiple computers.

- Managed central warehouse stock, stock-in/stock-out movements, and product distribution to multiple airport shops.
- Implemented shop-wise billing and sales tracking, low-stock reports, individual shop sales reports, and stock movement reports.

Airport Staff Management & ID Card Generator

Frontend | HTML, CSS, JavaScript

Created a staff records management application for Sialkot International Airport.

- Implemented staff record creation, editing, updating, and deletion.
- Generated staff ID cards in one click using saved employee information.

Medical Store Billing System

Frontend & Local Database | React, Tailwind CSS, Better-SQLite

Developed a billing and management application for a medical store.

- Built a user-friendly billing interface and medicine/product management workflow.
- Used Better-SQLite for local database storage and sales record management.

Hustler Clothee — E-commerce Website

Frontend | React, Tailwind CSS, EmailJS

Built a responsive e-commerce website with a focus on clean UI/UX and product presentation.

- Created dynamic product sections, reusable components, and responsive layouts.
- Integrated EmailJS for contact form submissions.

Pedro Iz Website

Frontend | React, JavaScript, Tailwind CSS (confirm exact stack)

Developed a modern, responsive website with reusable components and a focus on clean user experience.

- Built responsive layouts and interactive interface elements.
- Focused on smooth navigation, maintainable component structure, and visual consistency.

Custom Card Generator

Frontend | HTML, CSS, JavaScript

Created an interactive web application for generating and personalizing custom cards.

- Implemented dynamic card content and live preview using JavaScript and DOM manipulation.
- Designed a responsive interface for card customization.

EDUCATION

BS Software Engineering — University of Sialkot (2024)
FSc Pre-Engineering — ILM Group of Colleges (2020)
Matriculation — Science — Government High School (2017)
